- Enhanced brand presence through effective campus outreach and ambassador programs.

PROJECTS

GENIUS: [DEMO](#) [CODE](#)

- Generative AI web app made using Next.js and TypeScript-based project with a modern UI developed using Shadcn
- The project utilizes Prisma ORM to establish seamless communication with PlanetScale, a serverless MySQL-compatible database. API used are OPEN AI and Replicate AI
- 50+ users have registered on the web app.

MUMBLE CHAT: [DEMO](#) [CODE](#)

- MUMBLE CHAT is a real-time chat app using React.js and Google Firebase for robust communication.
- Utilized SASS for HTML styling, enhancing MUMBLE CHAT with an appealing and functional user interface.
- Around 100 users have registered on the web app.

BOT GENIUS: [VIDEO](#) [CODE](#)

- Web app made with MERN Stack (MongoDB, Express.js, React.js, Node.js) and integrated with the OpenAI API.
- This project showcases the capabilities of generative AI, allowing users to interact with intelligent bots using features like image, text, summaray, code generation and conversation bot.

CHAT BUD: [VIDEO](#) [CODE](#)

- Python Django-based community chat web app resembling Discord, enabling users to create and join discussion rooms.
- Promotes user-driven conversations within topic-centric rooms, fostering a sense of community and collaboration.
